Avoiding Predatory Publishers & New 2019 Subscriptions via UNE Library Services:

When you and your students seek to publish, the process includes not only identifying relevant publications but also, increasingly, ensuring you avoid the predatory ones. UNE Library Services is happy to now be able to offer [Cabells Blacklist](#) to help identify the risky publishers. Other new subscriptions for 2019 include AccessMedicine's [Case Files® Collection](#) and [Journal of Periodontology backfiles](#).

[Cabells Blacklist](#)

[Case Files Collection](#)

[Cabells Blacklist](#)

Available in the UNE Library Services Database list under "C," [Cabells Blacklist](#) is the "only blacklist of deceptive and predatory academic journals. Specialists analyze over 60 behavioral indicators to keep the community abreast of the growing threats and to keep researchers protected from exploitative operations." (FYI: "Cabells" sounds like "babbles.")

[Case Files Collection](#)

Available in the UNE Library Services Database list under "C," AccessMedicine's [Case Files® Collection](#) offers a comprehensive case collection in an interactive format to help students learn and apply basic science and clinical medicine concepts in the context of realistic patient cases. (Also available on AccessMedicine home page under "Cases.")

[Journal of Periodontology Backfiles](#)

Access to the [Journal of Periodontology](#) has been expanded to include its backfiles through 1930.

Please share this resource with your colleagues and let us know at the library how we can help you and your students.

Thanks,

Bethany Kenyon
