Jump Start Research with Subject Guides & Librarians via UNE Library Services:

While UNE Library Services does offer an ‘almost everything’ search box on its home page, you and your students are most likely to find relevant research literature by utilizing specific subject databases. UNE Librarians have crafted research [Subject Guides](#) for each of UNE’s areas of study, and they’re a great place to begin your focused research.

[UNE Librarians are also available](#) for individual consultations and course instruction sessions on effective use of our databases.

Each subject guide lists, describes, and links to the most topically relevant subject databases, along with linked subject headings for finding other relevant resources within the library collections. The subject guides also include links to each area’s important associations and societies, along with links to other useful library research materials.

Please share this resource with your colleagues and let us know at the library how we can help you and your students.

Thanks,
