

Dr. Bergen

March 6, 1975

Dr. Asa S. Knowles, President
Northeastern University
Richards Hall
360 Huntington Avenue
Boston, Massachusetts 02115

Dear Dr. Knowles:

At its March 5, 1975 meeting, the Board of Trustees of New England Foundation for Osteopathic Medicine considered your suggestion of appropriating \$10,000. for a study grant to be undertaken by Northeastern University for the feasibility of entering a contract to provide basic science instruction for students of the proposed College of Osteopathic Medicine. The Board voted to take no action on your proposal at this time.

We assume that you are aware the New England Foundation for Osteopathic Medicine is reviewing other potential sites in New England. We appreciate your interest and will advise you further regarding our final decision. If you have any further thoughts on this matter we would be happy to hear from you.

Thank you for your cooperation.

Sincerely,

Robert Russell Brown, D. O.
Chairman of the Board of Directors
New England Foundation For
Osteopathic Medicine
