Hot Topics: Looking for ideas for a research paper?

School just started but you already know about the 10-page paper due at mid-semester. You also probably know that a key to a great paper is a great topic. If you need some ideas, start here:

CQ Researcher is a database noted for its in-depth coverage of health, social trends, criminal justice, international affairs, education, the environment, technology, and the economy. Each report has an introductory overview; background and chronology on the topic; an assessment of the current situation; tables and maps; pro/con statements from representatives of opposing positions; and bibliographies of key sources. From UNE Library homepage go to “Databases by Title” - “C” - CQ Researcher.

Opposing Viewpoints Resource Center is a full text database designed to aid students in the study of today’s hottest social issues, from Terrorism to Endangered Species, Stem Cell Research to Gun Control. Found under “Databases by Title” - “O”.

Points of View Reference Center helps researchers understand the full scope of controversial subjects to debate, develop arguments, write position papers, and develop critical thinking skills. Topics from Athletes & Drugs to Year-Round School. Go to “Databases by Title” - “P”.
